Trados Mini-Learning AI Terminology Extraction

This course covers how to use the AI-based terminology extraction for Monolingual Term Extraction and Term Translation.

TARGET AUDIENCE

This mini-learning is designed for Terminologists, lead project managers, and language technology users working with Terminology in Trados Team, Accelerate and Enterprise.

LEARNING OBJECTIVES

By completing this eLearning, you will be able to run and configure extraction settings for monolingual or bilingual workflows, monitor extraction progress and manage extracted terms, as well as apply best practices to optimize extraction results.

COURSE DURATION

The course is approximately 30 minutes in duration and can be viewed and then used as a post-course reference tool.

COURSE DETAIL

The course will cover the following topics:

- What is AI Terminology Extraction?
- Monolingual Term Extraction - Live Demo
- Term Translation Extraction - Practice
- Requirements for successful terminology extraction
- Best Practices for Efficient and Reliable Term Extraction

DELIVERY

Hosted on the RWS University learning portal, this self-paced eLearning course allows users to self-register and access the content individually.
