Trados Mini-Learning Smart Insights

This course provides an overview of Smart Insights and includes resources to help you get the most out of this feature.

TARGET AUDIENCE

This micro-learning is designed for Project Managers working in Trados looking to make better use of their project data.

LEARNING OBJECTIVES

By the end of this course, learners will be able to:

- Use Smart Insights effectively to support data-driven decision making.

COURSE DURATION

The course is approximately 10 minutes in duration and can be viewed and then used as a post-course reference tool.

COURSE DETAIL

The course will cover the following topics:

- What Smart Insights is and how it works
- The real-world value it brings to your day-to-day work
- A demonstration of Smart Insights in action, using practical scenarios
- How to explore available report data through sample queries
- Tips and resources to help get the most out of this feature

DELIVERY

Hosted on the RWS University learning portal, this self-paced eLearning course allows users to self-register and access the content individually.
