

Trados Studio Level 2 eLearning Segment Fragments

The Segment Fragments eLearning course provides an overview of how to use TM segment fragments and AutoSuggest dictionaries when translating documents.

TARGET AUDIENCE

This course is for translators who already have some experience using Trados Studio and want to improve their expertise in the use of the product.

LEARNING OBJECTIVES

This eLearning course will illustrate how to manage TM segment fragments effectively and improve translation speed and general expertise in the use of Trados Studio.

COURSE DURATION

The course is 60 minutes in duration and can be viewed and then used as a post-course reference tool.

DELIVERY

This eLearning course is hosted in our RWS University learning portal. Each user will be given individual access to the course and will be able to take it at their own pace.

COURSE DETAIL

The course will cover the following topics:

- What are Segments Fragments?
- Upgrading the TM
- Using Segment Fragments
 - Retrieving fragments based on whole and partial TUs
 - Enabling fragment search in the project settings
 - Using segment fragments
 - Applying formatting automatically
 - Fuzzy match repair
- AutoSuggest Dictionaries
 - Creating an AutoSuggest Dictionary
 - Adding an AutoSuggest dictionary to a project
 - Using the AutoSuggest dictionary during translation
 - Fine-tuning AutoSuggest settings
